

KEVIN YODER

High-Performance Mindset Coach & Creator of Infinite U

Helping entrepreneurs and leaders rewire their beliefs, break through internal limits, and rise into the highest expression of who they were designed to be.

Kevin Yoder is a high-performance mindset coach, entrepreneur, and creator of Infinite U — a 12-lesson transformation system helping entrepreneurs, leaders, and teams unlock their potential from the inside out. After 25+ years as a top-performing real estate leader, broker/owner, and investor, Kevin discovered that success is less about strategy and more about identity. Today he teaches the mental frameworks, belief systems, and performance psychology that create exponential results in business and life. Kevin is also the host of The Infinite U Podcast.

Kevin Yoder is a **high-performance mindset coach**, entrepreneur, investor, and the creator of **Infinite U** — a **one-of-a-kind 12-lesson transformation system** for entrepreneurs and leaders who are ready to break internal limits and create extraordinary results in business and life.

Over the last 25 years, Kevin built one of the **top real-estate teams in the Midwest**, coached hundreds of salespeople, invested in real estate, and became known for **producing consistent high-performance results** in highly competitive markets. But despite the achievements, he didn't feel fulfilled. Something deeper was missing — not just for him, but for the entrepreneurs he coached.

He discovered what most high achievers eventually learn: strategy doesn't matter if your identity is wired for a smaller life than the one you want.

This realization sent Kevin into a multi-year journey studying paradigms, self-image, subconscious programming, performance psychology, and identity transformation. The breakthroughs that followed became the foundation for the **Infinite U system** — a program designed to rewire the inner world of the entrepreneur so external results become inevitable.

Kevin now teaches entrepreneurs, sales organizations, loan officers, leaders, and business owners how to **shift paradigms, elevate their self-image, install high-performance identity coding, and create the mindset** required to achieve quantum leaps in income, impact, and **personal fulfillment**.
