Money Expert and Mental Fitness Guide

**GLOBAL

MAKE MONEY WORK FOR YOU.

ABOUT ME

Jeannie's clients call her a money whisperer because she can see where you are blocking your money and how to fix.

QUICK BIO

Jeannie got her start as a money coach after both of her parents passed away from Alzheimer's and her mother's estate was financially exploited by another family member. She realized quickly she needed more than just financial advice. She needed to reprogram her money brain.

That's what she does with her clients: she helps rewire their money brains from scarcity, confusion, fear and stress, to abundance, clarity, and calm.

She does this now with her clients 1:1, couples, and group coaching.

MY VISION STATEMENT

I AM HERE for folks who no longer want to feel like prisoners to their work because of an outdated and traumatic money-making mindset. Your money brain drives everything you do and who you want to be; isn't it time for you to make it your friend?
